## Message from the CEO

#### Strong sales growth and improved operating profit

David Nuutinen, President and CEO

Cloetta's operating profit (EBIT) improved in the quarter and amounted to SEK 212m (178). The operating profit margin rose to 14.5 per cent (13.7). Furthermore, sales increased through organic growth as well as acquisition-driven growth and foreign exchange movements.

The improvement in operating profit is due mainly to an adjustment in the contingent earn-out consideration for acquisitions. Operating profit has been negatively affected by exchange rate differences and one-off costs related to the acquisition of Locawo B.V. (Lonka).

Operating profit, adjusted for one-off items, was SEK 194m (193). Operating profit, adjusted for one-off items, has been affected by increased marketing investments. The operating profit margin, adjusted for one-off items, was 13.3 per cent (14.8). Profit for the period improved to SEK 130m (87).

#### Strong cash flow and decrease in net debt/EBITDA

Cash flow from operating activities remains strong and amounted to SEK 174m (75) in the quarter. Net debt/EBITDA decreased substantially compared to the same quarter of last year. Despite the acquisition of Lonka during the quarter, net debt/EBITDA only increased from 3.30 to 3.39 compared to the second quarter of 2015.

#### **Confectionery market**

The confectionery market showed overall positive development in Sweden, Norway, Denmark and Finland. In the Netherlands and Italy, market development was slightly negative during the quarter.

#### Increase in both organic and acquisition-driven growth

Cloetta's sales for the quarter grew by 12.0 per cent, of which organic growth accounted for 4.2 per cent, the acquisition of Lonka for 6.6 per cent and exchange rate differences for 1.2 per cent. I am particularly pleased that our organic sales growth reached 4.2 per cent despite the fact that we were negatively affected during the quarter by both ongoing contract negotiations and declining sales in a few markets. However, the contract negotiations with one large customer in Sweden has now been finalized.

Cloetta's sales increased in all markets except Finland, Norway and Italy. The upward sales trend in Sweden was driven by the new Pick & Mix concept and sales in Denmark rose primarily within pastilles. Sales in the Netherlands and Germany rose primarily within candy bags. Sales in Norway decreased within pastilles and in Finland, sales were down within candy bags. Sales in Italy continued to decline and Cloetta has thus not seen growth in Italy since the fourth quarter of 2013.

#### Stable raw material prices

Raw material prices were largely unchanged during the quarter, but with continued high prices for cocoa and nuts in particular. Over the past few quarters Cloetta has raised its prices primarily in Sweden and Norway to compensate for unfavorable exchange movements.

#### Integration of Lonka according to plan

 $Lonka, which was acquired on 17\ July\ 2015, has significantly strengthened\ Cloetta's\ position\ in\ the\ Netherlands.$  The Nordic countries and the UK are other important markets, especially within Pick & Mix.

The process of integrating Lonka into Cloetta's organization has begun and is proceeding according to plan. A new joint sales and marketing organization has been set up in the Netherlands and plans for how Lonka products will be handled and launched in other markets are under preparation. Through the acquisition of Lonka, Cloetta has gained two additional factories. Efforts to coordinate integration of the factories and working methods have started. When all of the cost synergies from the acquisition of Lonka have been realized, we expect these to support Cloetta's target of an EBIT margin, adjusted for one-off items, of 14 per cent. With regard to sales and profitability, Lonka has developed according to plan during the quarter.

#### Cloetta a member of Bonsucro

Cloetta has continued to step up its sustainability commitment and has therefore become a member of Bonsucro, an organization devoted to addressing the sustainability challenges in the sugarcane sector.

#### Strategy stands firm

When I took over as CEO of Cloetta this summer, I said that my ambition was to continue on the profitable growth path driven by organic sales growth, continued cost-efficiencies and new initiatives, including potential acquisitions. I am therefore pleased to state that in my first quarter as CEO we were able to demonstrate both continued organic sales growth and the acquisition of Lonka. This shows that the strategy stands firm.

Our focus moving forward is naturally on sustained profitable growth, but new initiatives within Pick & Mix and the integration of Lonka are also prioritized areas.

### Financial overview

#### **Development in the third quarter**

#### **Net sales**

Net sales for the third quarter rose by SEK 156m to SEK 1,459m (1,303) compared to the same period of last year. Organic growth was 4.2 per cent and acquisition-driven growth was 6.6 per cent.

Cloetta's sales increased in all markets except Finland, Norway and Italy. The upward sales trend in Sweden was driven by the new Pick & Mix concept and sales in Denmark rose primarily within pastilles. Sales in the Netherlands and Germany rose primarily within candy bags. Sales in Norway decreased within pastilles and in Finland, sales were down within candy bags. Sales in Italy continued to decline and Cloetta has thus not seen growth in Italy since the fourth quarter of 2013.

| Changes in net sales, %   | Jul-Sep 2015 | Jan-Sep 2015 |
|---------------------------|--------------|--------------|
| Organic growth            | 4.2          | 3.0          |
| Structural changes        | 6.6          | 3.6          |
| Changes in exchange rates | 1.2          | 1.9          |
| Total                     | 12.0         | 8.5          |

#### **Gross profit**

Gross profit amounted to SEK 565m (500), which is equal to a gross margin of 38.7 per cent (38.4). The improvement in gross margin is mainly explained by higher efficiency in the factories and lower restructuring cost.

#### **Operating profit**

Operating profit was SEK 212m (178). The improvement is mainly due to adjustment of the contingent earn-out consideration for acquisitions. Operating profit has been negatively affected by exchange rate differences, increased marketing investments and non-recurring costs related to the acquisition of Lonka. Operating profit, adjusted for one-off items, amounts to SEK 194m (193).

#### One-off items

Operating profit for the third quarter includes one-off items related to adjustment of the contingent earn-out consideration for acquisitions and acquisition costs for Locawo B.V.

#### Net financial items

Net financial items for the quarter amounted to SEK -43m (-52). Interest expenses related to external borrowings were SEK -27m (-39) and other financial items amounted to SEK -16m (-13). Of total net financial items, SEK -10m (-18) is non-cash in nature.

#### Profit for the period

Profit for the period was SEK 130m (87), which is equal to basic and diluted earnings per share of SEK 0.45 (0.30). Income tax for the period was SEK -39m (-39). The effective tax rate for the quarter is 23.1 per cent (31.0).

#### **Acquisitions and divestments**

On 17 July 2015 Cloetta acquired Locawo B.V. which owns the brand "Lonka" – a Dutch company producing and selling fudge, nougat and chocolate. Lonka is a well-known brand that will significantly strengthen Cloetta's position in the Netherlands. The acquisition will diversify Cloetta's product range into new technologies and categories, including the Dutch chocolate market. It will also create cost synergies, thereby supporting Cloetta's target of an EBIT margin, adjusted for one-off items, of 14 per cent. In addition, there are long term revenue synergies that can be realized. For the preliminary accounting for the business combination, see page 17.

#### Development in the first three quarters of the year

#### **Net sales**

Net sales for the first three quarters were up by SEK 318m to SEK 4,052m (3,734) compared to the same period of last year. Organic growth was 3.0 per cent, acquisition-driven growth was 3.6 per cent and changes in exchange rates accounted for 1.9 per cent.

Sales increased in all markets except Italy, the Netherlands and Norway.

#### **Gross profit**

Gross profit amounted to SEK 1,580m (1,392), which is equal to a gross margin of 39.0 per cent (37.3). The improvement in gross margin is mainly explained by higher efficiency in the factories and lower restructuring cost.

#### **Operating profit**

Operating profit was SEK 432m (315). The improvement is due to higher efficiency in the factories and lower restructuring costs compared to 2014. An adjustment in the contingent earn-out consideration for acquisitions has also had a positive impact on operating profit. Operating profit, adjusted for one-off items, amounts to SEK 435m (375).

#### One-off items

Operating profit for the first three quarters includes one-off items related to adjustment of the contingent earn-out consideration for acquisitions, the reorganization in Italy and acquisition costs for Locawo B.V.

#### **Net financial items**

Net financial items for the first three quarters of the year amounted to SEK –130m (–168). Interest expenses related to external borrowings were SEK –94m (–108) and other financial items amounted to SEK –36m (–60). Of total net financial items, SEK –31m (–53) is non-cash in nature.

#### **Acquisitions and divestments**

On 17 July 2015 Cloetta acquired Locawo B.V.. No divestments took place during the first three quarters of the year.

#### **Cash flow from operating and investing activities**

#### Cash flow for the third quarter

Cash flow from operating activities was SEK 174m (75). Cash flow from operating activities before changes in working capital was SEK 236m (152). The improvement compared to the prior year is mainly the result of a higher operating profit and lower interest expenses. Cash flow from changes in working capital was SEK –62m (–77). Cash flow from operating and investing activities was SEK –62m (24).

#### Working capital

Cash flow from changes in working capital follows normal seasonal pattern and was SEK -62m (-77).

#### Investments

Cash flow from investing activities was SEK  $-236 m \, (-51)$ . The increase is mainly due to the acquisition of Locawo B.V. for a net amount of SEK -206 m. The cash flow from investments in property, plant and equipment and intangibles amounted to SEK  $-30 m \, (-38)$ .

#### Cash flow for the first three quarters of the year

Cash flow from operating activities was SEK 560m (210). Cash flow from operating activities before changes in working capital was SEK 402m (225). The improvement compared to prior year is mainly the result of a higher operating profit and lower interest expenses. The cash flow from movements in working capital was SEK 158m (–15). Cash flow from operating and investing activities was SEK 241m (–99).

#### Working capital

The cash flow from changes in working capital was SEK 158m (-15). The cash flow from movements in working capital is mainly attributable to higher collection of receivables of SEK 175m (47) mainly related to the seasonal sales. A nearly flat inventory level in the first three quarters of the year compared to increasing inventory in the first three quarters of 2014 impacted the cash flow positively in an amount of SEK 13m (-88).

#### Investments

Cash flow from investing activities was SEK -319m (-309). The increase is mainly due to the acquisition of Locawo B.V. for a net amount of SEK -206m. The cash flow from investments in property, plant and equipment and intangibles amounted to SEK -113m (-118).

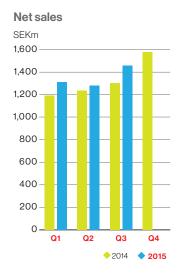

#### **Financial position**

#### Other disclosures

#### **Seasonal variations**

Cloetta's sales and operating profit are subject to some seasonal variations. Sales in the first and second quarters are affected by the Easter holiday, depending on in which quarter it occurs. In the fourth quarter, sales are usually higher than in the first three quarters of the year, which is mainly attributable to the sale of products in Sweden and Italy in connection with the holiday season.

The average number of employees during the quarter was 2,493 (2,495).

#### Events after the balance sheet date

After the end of the reporting period, no significant events have taken place that could affect the company's operations.

### **Review report**

#### Introduction

We have reviewed the summary interim financial information (interim report) of Cloetta AB (publ) as of 30 September 2015 and the nine-month period then ended. The Board of Directors and the Managing Director are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

#### **Scope of review**

We conducted our review in accordance with International Standard on Review Engagements ISRE 2410 Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and other generally accepted auditing practices and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

#### **Risk factors**

Cloetta is an internationally active company that is exposed to a number of market and financial risks. All identified risks are monitored continuously and, if needed, risk mitigating measures are taken to limit their impact. The most relevant risk factors are described in the annual report for 2014 and consist of industry- and market-related risks, operational risks and financial risks. Compared to the annual report for 2014, which was issued on 12 March 2015, no new risks have been identified.

#### **Accounting policies**

The consolidated financial statements are presented in accordance with the International Financial Reporting Standards (IFRS) established by the International Accounting Standards Board (IASB) and the interpretations issued by the IFRS Interpretations Committee (IFRIC) which have been endorsed by the European Commission for application in the EU. The applied standards and interpretations are those that were in force and had been endorsed by the EU at 1 January 2015. Furthermore, the Swedish Financial Reporting Board's recommendation RFR1, Supplementary Accounting Rules for Groups, has been applied. The consolidated interim report is presented compliant with IAS 34, Interim Financial Reporting, and in compliance with the relevant provisions in the Swedish Annual Accounts Act and the Swedish Securities Market Act. The interim report for the Parent Company has been prepared in accordance with the Swedish Annual Accounts Act and the Swedish Securities Market Act, which are consistent with the provisions in recommendation RFR 2, Accounting for Legal Entities.

The same accounting policies and methods of computation are followed in the interim financial statements as compared to the most recent annual financial statements, except for amendments to standards that are effective for annual periods beginning on 1 January 2015 that have not been already applied in preparing the 2014 consolidated financial statements. The changes in these standards have not had any material impact on recognition or measurement or the financial reporting disclosure requirements. For detailed information about the accounting policies, see Cloetta's annual report for 2014 at www.cloetta.com

#### Fair value measurement

The only items recognized at fair value after initial recognition are the interest rate swaps and forward foreign currency contracts categorized at level 2 of the fair value hierarchy in all periods presented and the contingent earn-out consideration related to the acquisition of Alrifai Nutisal AB (currently known as Cloetta Nutisal AB) and the contingent consideration arising from the option agreement for Aran Candy Ltd. categorized at level 3, as well as assets held for sale,

in cases where the fair value less cost to sell is below the carrying amount. The fair values of financial assets (loans and receivables) and liabilities measured at amortized cost are approximately equal to their carrying amounts. The fair value of financial assets and liabilities for measurement purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

The fair value measurements by level according to the fair value measurement hierarchy are as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's assets and liabilities that were measured at fair value at 30 September 2015

No transfer between fair value hierarchy levels has occured during the financial year or the prior financial year.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximize the use of observable market data where it is available and rely as little as possible on entity-specific estimates. If all significant inputs required to determine the fair value of an instrument are observable, the instrument is included at level 2. The valuation of these instruments is based on quoted market prices (price-component), but the underlying contract amounts (quantity-component) are based on the specific requirements of the Group. These instruments are therefore included at level 2. The fair value measurement of the contingent earn-out liability requires the use of significant unobservable inputs and is thereby categorized at level 3. The valuation techniques and inputs used to value financial instruments are:

- Quoted market prices or dealer quotes for similar instruments.
- The fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves.

- The fair value of forward foreign currency contracts is calculated using the difference between the exchange rate on the spot date with the contractually agreed upon exchange rates.
- The fair value of the assets held for sale is based on valuations by external independent valuators.
- Other techniques, such as discounted cash flow analysis, are used to determine the fair value of the remaining financial instruments.

The fixed assets measured at fair value are identified as a non-recurring fair value measurement and are related to the assets held for sale. The assets are valued at fair value because the fair value less cost to sell is below the carrying amount. The contingent earn-out liabilities are measured at fair value using a scenario model with an earn-out threshold, different results and related changes, and an applicable multiplier as input. These data are aligned with the earn-out contracts. The inter-relationship between significant unobservable inputs and fair value measurement are:

- The estimated fair value of the contingent earn-out consideration would increase (decrease) if:
- the forecasted profit before indirect cost for 2015 and 2016 was higher (lower).
- The estimated fair value of the contingent consideration arising from option agreements would increase (decrease) if:
  - the working capital at 31 December 2015 was higher (lower),
  - the cash balance at 31 December 2015 was higher (lower),
  - the adjusted gross profit for 2015 was higher (lower).

#### **Acquisition of Locawo B.V.**

On 17 July 2015 Cloetta acquired control of Locawo B.V., a manufacturer of a wide range of sweets, by acquiring 100 per cent of the total outstanding ordinary shares. This transaction has provided Cloetta with 100 per cent of the voting rights in Locawo B.V. The primary reason for the acquisition is to broaden the Cloetta product portfolio as part of its 'Munchy Moments' strategy and to gain access to the adult candy and chocolate market in the Netherlands.

The total consideration consists of SEK 206m of cash. No contingent consideration is arranged in the transaction.

The goodwill of SEK 40m relates primarily to the potential of new distribution channels, the workforce, the creation of diversity in Cloetta's branded portfolio and new market/sales opportunities in Cloetta's markets. The total goodwill of SEK 40m is not expected to be deductible for tax purposes.

The acquired receivables consist of trade receivables of SEK 34m which are expected to be collected in full. The contingent liabilities recognized as part of the purchase price allocation amount to SEK 1m. The total of transaction cost related to the acquisition amounted to SEK 9m and is fully recognized in the profit and loss account for of the period concerned as 'General & administrative expenses'.

Due to the short-term nature of the receivables, the fair value approximates the gross contractual amounts. The contractual cash flows which are not expected to be collected are immaterial.

Locawo B.V. contributed SEK 86m to Cloetta's consolidated revenues from acquisition date to 30 September 2015. Had Locawo B.V. been consolidated from 1 January 2015, it would have (pro forma) contributed SEK 230m to consolidated revenues over the period from 1 January 2015 to 30 September 2015. Because Locawo B.V. was acquired on 17 July 2015, the accounting for the business combination is preliminary and has not yet been finalized, as the company is still assessing certain information. The goodwill acquired is allocated to the Middle cash generating unit.
