Statement regarding the nomination committee's proposal for the Board of Directors

The nomination committee assesses that the current number of board members (seven members) is an appropriate size of the board.

The nomination committee is of the opinion that the board in Cloetta is functioning well and that it is appropriate to maintain continuity in the work of the board. In its proposal for the board's composition, the nomination committee has also considered Cloetta's business and stage of development as well as what competence that can be expected to be of importance for the board in the future.

The nomination committee has been informed that Adriaan Nühn has declined re-election. The nomination committee has therefore considered it suitable to complement the board with a new board member. In its selection process, the nomination committee has considered that an international profile and supply change experience from the FMCG industry is particularly valuable, and proposes Alan McLean Raleigh as a new board member. Alan McLean Raleigh has an extensive background in the FMCG industry, most recently at Unilever where he served as Executive Vice President, Personal Care Supply Chain. During a career spanning more than 30 years with Unilever, he held several manufacturing, engineering and business transformation positions. He is a board member of Robinson Packaging plc. Alan McLean Raleigh, born in 1959, is a U.K. citizen. He has a Bachelor degree in Production Engineering and Production Management from the University of Strathclyde.

The nomination committee considers that the proposed Board of Directors to the Annual General Meeting has a suitable composition and is very well suited for its tasks. The gender balance on the proposed Board of Directors is nearly equal.

The nomination committee has assessed that the proposed Board of Directors fulfills the independence requirements pursuant to the Swedish Corporate Governance Code.
